1. Need to redesign the header top bar and adjust the navigation accordingly.
2. Code the slider for SEO optimization; avoid using text in images to ensure Google can read and crawl the content.
3. Improve the design of the category and collection section. Currently, there is a Liquid error in the category section:

Error Screenshot =>

The screenshot shows a 'Shop By Category' section with six items, each displaying a 'Liquid error' message. Below this is a horizontal navigation bar with links: Air Fresheners, Baking Paper, Bar and Cellar, Air Mover, Crystal, and Dispenser.

Shop By Category					
Liquid error (sections/collection-list line 25): invalid url input					

Consider displaying it like these examples:

The template consists of six numbered boxes (01 to 06) for different services, each with an icon, a title, and a brief description. A footer at the bottom states: 'We always ready to serve you. [View more Services](#)'.
